

INSTRUCTION

BP 6174 Education for English Learners

The Governing Board intends to provide English language learners with challenging curriculum and instruction that develop proficiency in English as rapidly and effectively as possible in order to assist students in accessing the full educational program and achieving the county office of education's academic standards. The county office of education's program shall be based on sound instructional theory and shall be adequately supported so that English language learners can achieve results at the same academic level as their English-proficient peers in the regular course of study.

The Board encourages staff to exchange information with staff in other county offices of education and districts about programs, options and strategies for English language learners that succeed under various demographic conditions.

The Superintendent or designee shall maintain procedures which provide for the identification, assessment and placement of English language learners and for their redesignation based on criteria adopted by the Board and specified in administrative regulations.

To evaluate program effectiveness, the Superintendent or designee shall regularly examine program results, including reports of the English language learners' academic achievement. The Superintendent shall also provide the Board with regular reports from any County Office of Education English Learner Advisory committees as appropriate.

Type of Instruction

Students who are English language learners shall be educated through "sheltered English immersion" or "structured English immersion" during a temporary transition period not normally intended to exceed one year. "Nearly all" of the classroom instruction in the county office of education's sheltered English immersion program shall be in English, but with the curriculum and presentation designed for students who are learning the language.

The county office of education has defined the term "nearly all" as follows:

Classroom instruction shall be conducted in English except for clarification, explanation and support as needed.

When an English language learner has acquired a reasonable level of English proficiency as measured by any of the state-designated assessments approved by the California Department of Education or any locally developed assessments and using other criteria developed by the county office of education, he/she shall be transferred from a structured English immersion classroom to an English language mainstream classroom in which the instruction is "overwhelmingly" in English.

An English language learner has acquired a "reasonable level of English proficiency" when he/she has achieved the following: a score of Early Advanced overall on CELDT or a portfolio of student work that demonstrates a similar level of proficiency in reading, writing, listening, and speaking.

Upon the request of his/her parent/guardian, a student shall be placed in an English language mainstream classroom.

Parental Exception Waivers

At any time during the school year, the parent/guardian of an English language learner may have his/her child moved into an English language mainstream program.

Parent/guardian requests for waivers from Education Code 305 regarding placement in a sheltered English immersion program shall be granted in accordance with law and administrative regulation.

If the Superintendent or designee denies the waiver request, he/she shall provide a written justification to the parent/guardian describing the reasons for the denial.
